Objective

A motivated developer with hands-on experience in frontend development and a growing expertise in backend technologies. Proficient in Java, with a solid understanding of creating and maintaining dynamic, user-friendly web applications. Currently expanding skills in backend development to become a versatile full-stack developer.

Experience

- AP MOBILITY** May 2024 - June 2024
Frontend Developer Intern
Worked on developing and maintaining user interfaces for web applications. Collaborated with the design team to implement responsive and visually appealing layouts. Utilized HTML, CSS, JavaScript, and React.js to enhance the functionality and user experience of web pages. Assisted in debugging and optimizing code to ensure high performance across various browsers.

Education

- IIMT University**
B.Tech - Computer Science and Engineering
- Lucknow Public School**
Higher Secondary Certificate
- Lucknow Public School**
Secondary School Certificate

Skills

- Language : Java
- Frontend : HTML, CSS, JavaScript, React.js
- Backend : Node.js, Express.js, MongoDB, API Development
- Database : Sql

Projects

- Farmer Online Market**
Built a full-stack online marketplace connecting farmers and buyers using React.js, Node.js, Express.js, and MongoDB. Implemented features like farmer profiles, crop listings, bidding system, buyer registration, and responsive UI with Tailwind CSS. Focused on seamless user experience and efficient data handling.
- YouTube Clone Project**
Developed a full-stack YouTube clone using React.js for the frontend and Node.js with Express.js for the backend. Implemented video upload, playback, user authentication, commenting, and search functionality. Focused on creating a clean UI, responsive design, and smooth video streaming experience.
- Fitness App**
Developed a React.js fitness app with ExerciseDB API. Implemented secure login via MongoDB. Allows users to explore exercises by body part or equipment. Provides detailed instructions and visuals for each exercise.
- Blog Application**
Using Node.js, Express, and MongoDB, I built a platform where users can register, log in, and share their thoughts. To ensure security, I implemented bcrypt for password hashing, safeguarding user information.

Certification

- Programming in Java**
IIT Kharagpur (NPTEL Certification)
- Cloud Computing**
IIT Kharagpur (NPTEL Certification)
